

HIMA VIJITH

M.Sc. BIOTECHNOLOGY STUDENT

+91 9656604206 • himaavijithh@gmail.com • linkedin.com/in/hima-v-63b841379

Kozhikode, Kerala

SUMMARY

Detail-oriented M.Sc. Biotechnology student with a strong foundation in molecular biology, biotechnology, and bioinformatics. Possesses hands-on academic exposure to key laboratory techniques including PCR, ELISA, and chromatography, along with experience in sequence analysis using BLAST. Demonstrates strong analytical thinking, attention to detail, and research aptitude. Seeking opportunities to gain practical experience and contribute to research and development in biotechnology and life sciences.

EDUCATION

M.Sc. Biotechnology (2025 – 2027, Expected)

Amity University, Bengaluru

B.Sc. Zoology (2022 – 2025)

GCK, Kozhikode

CGPA: 8.33 • First Class with Distinction • Final Grade: A

PROJECTS

Study on Avian Diversity in Wetland Ecosystems

Conducted field-based observations to study bird diversity

Recorded and analysed species distribution patterns

Developed research documentation and observational skills

TECHNICAL SKILLS

Bioinformatics & Analysis

BLAST (sequence alignment and analysis)

NCBI databases

Basic sequence analysis

Programming & Data Handling

R Programming (beginner level)

MS Excel (data analysis and organization)

Laboratory Techniques (Academic Exposure)

Polymerase Chain Reaction (PCR)

Enzyme-Linked Immunosorbent Assay (ELISA)

Basic Chromatography Techniques

Software Tools

MS Office (Word, Excel, PowerPoint)

CERTIFICATIONS

Industrial Biotechnology – University of Manchester (Coursera), 2026

Mendeley Training Certification (2026)

Workshop on Genome Sequencing and Analysis

MS Office Certification

STRENGTHS

Strong foundation in molecular biology, biotechnology, and bioinformatics principles

Hands-on academic exposure to PCR, ELISA, and chromatography techniques

Basic proficiency in bioinformatics tools (BLAST, NCBI) and sequence analysis

Ability to perform data analysis and biological data interpretation

Strong analytical and problem-solving skills in scientific contexts

High level of attention to detail in experimental observation and data handling

Demonstrates research aptitude and eagerness to learn advanced laboratory techniques

Good organizational and time management skills

Adaptable with a quick learning ability

LANGUAGES

English (Proficient)

Malayalam (Native)

Tamil
